Russel,

Thank you very much for getting those additional "no flow" samples into the database.

Your water monitoring data entry is now complete for the 4th quarter of 2004.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

Dana,

I just entered the sites into the pipeline.

Not for those sites.

Dana,

I believe that I have entered the sites as DRY/NOF. Since they were dry
I could not grab a sample. Did the DRY/NOF not make it into the pipeline?

Russel,

I have uploaded all of the information for the Emery Deep Mine from the pipeline into the database. A report is attached.

As a reminder, according to parameters set by the assigned hydrologist,

you are still missing samples for:

CHRSTNSN SP-15

EMERY #1 SP-14

EMERY #2 SP-13

BRYANT #1 SP-10

BRYANT #2 SP-11

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

Pam,

Please find the 4th quarter water data for Consolidation Coal Company's

Emery Mine in the pipeline. Also, I am not sure if I completed the oil

and grease portion correctly. All on our sediment ponds passed the oil

and grease but I am not sure if the computer registered this.

If you have any questions please let me know.

Thank You,
